### About American Well

Have you ever wanted to talk to a doctor online rather than take time out of your day to set up an appointment or wait in the emergency room? Have you ever wished that a 10 minute checkup or follow-up didn't require you to set aside two hours from your day? We are a web startup based in Downtown Boston offering a software service that facilitates online conversations between healthcare providers and patients. Our product is used by several regional health plans and hospitals to allow consumers to receive quality care online and provide physicians with an additional means to stay in touch with their patients.
