

American Well is looking to hire for the Usability Testing Team on an as needed basis! You don't need any prior experience and don't have to be available for every request. All you need is a PC or Mac and a webcam. 100% work from home!

How it works:

- 1) Apply to this ad with your resume
- 2) If interested, fill out a short form and send it back to me with any questions you have
- 3) I will then follow up with a contract
- 4) If hired, we contact you when we need our software to be tested (testing time can be anywhere from 5-15 min)
- 5) If you can't do it, no worries, we will reach out the next time!
- 6) You test the software per provided instructions and collect the necessary information
- 7) Once your test is complete, we pay you for your time!

Anyone who has a computer and webcam and wants to make some extra money in your free time, please reach out to me: Rebecca.Goldberg@Americanwell.com or apply here.
